

ESSENTIAL AUTOMATION Thinking Home, Thinking Clipsal

Intelligent home automation solutions

Your home is about living and with a C-Bus automation solution from Clipsal, your house can be a smart home, providing an enhanced lifestyle of entertainment, convenience, comfort and security. Start small and add to the system as your lifestyle changes.

Choosing the right technology for your home

Clipsal C-Bus redefines residential luxury by providing an integrated solution for the home. Incorporating C-Bus, one of the most feature rich and cost-effective control technologies, enables you to integrate and control virtually any electrical devices in the modern home to achieve the ultimate in convenience and style.

Clipsal C-Bus offers the perfect automation solution, whether you are building, renovating or improving your home. The flexibility of the system means that it can be expanded at any time and extra features can be added quickly and easily as your needs change.

Making your home smart with C-Bus

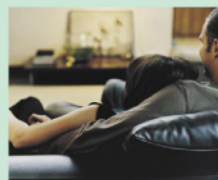

C-Bus offers a total luxury package. From home theatre at the touch of a button, to a home that looks after itself with welcome, goodbye and master off scenes.

In addition to controlling and monitoring all devices through one smart easy-to-use interface such as a colour touch screen, a C-Bus solution allows you to time schedule different scene settings and activities, providing not only a greater level of convenience but also optimising energy savings.

A home for your lifestyle

Whether you are building or want to enhance your existing home, with Clipsal C-Bus, anyone can enjoy the benefits of a smart home. You can even start small and add to the system as your lifestyle changes.

Smart options

ENTERTAINMENT

Recreate that cinema experience in your very own living room. Get comfortable as you sit down to watch a movie and adjust the lights to the exact level you want.

CONVENIENCE

You'll love coming home now more than ever. Create the perfect environment by pressing the 'Welcome Home' mode to turn on selected room lights, music and air-conditioning.

COMFORT

Forget going around your house and turning off all the lights. Turn every light off from the comfort of your bedside light switch and set lights to half brightness overnight to minimise glare.

SECURITY

Away from home for some time? Deter intruders by giving your home the 'lived-in' look. Your smart home system can also be linked to your security system for an even greater peace of mind.

It's your home
make it a **smart home**, and enjoy **smart living!**

Benefits of a Smart Home

Simple, yet enhanced control

Personalised master control of various electrical services and functions from a single location within the home or via a colour touch screen.

Energy efficient

Let C-Bus manage and control your lights and air-conditioning to deliver maximum savings through the efficient use of movement sensors and scheduled events.

Reduce repetitive chores

Repetitive switching of lights around the home can be a tedious chore. Simplify these routine task with automatic lighting sequences that will go on and off at preset times or during low light level conditions.

Design essentials

Choose from a wide range of stylish and beautifully crafted switches to complement your interior design.

Flexible & future-proof

Start small or in selected rooms and add on as your requirements or lifestyle change.

Easy to program

Alterations and additions on the C-Bus system can be easily achieved.

Maximise resale value

Adds value to your property and increases its resale potential.

Wiser - Home Control

Integrate with your security system to activate specific lighting during an emergency situation or when alarm zones are triggered.

Lights can be turn on and off at set times, all according to a schedule.

Colour Touch Screens

These stylish, touch sensitive, LCD screens can replace multiple wall switches and dimmers to add a touch of enviable style and functionality to any home.

The screens can be personalised with your own colour scheme, graphics and screensavers. So no matter how often you change your decor, your C-Touch Colour can change with you.

C-Touch ULTI Series

Black | Mid Brown | Cream | White

C-Touch NEO Series

Black | White
White Aluminium | Grey Aluminium
