

EPIC External presentation

October 2010

A quick peek into the luggage
of a modern traveler typically
reveals a collection of
electronic devices...

Laptop Computer

Digital camera

i-Phone, i-Pad

Portable Games

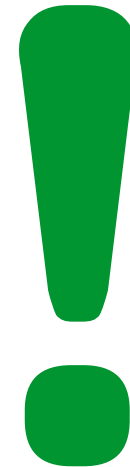

...

Outlets are **scattered** around the room...

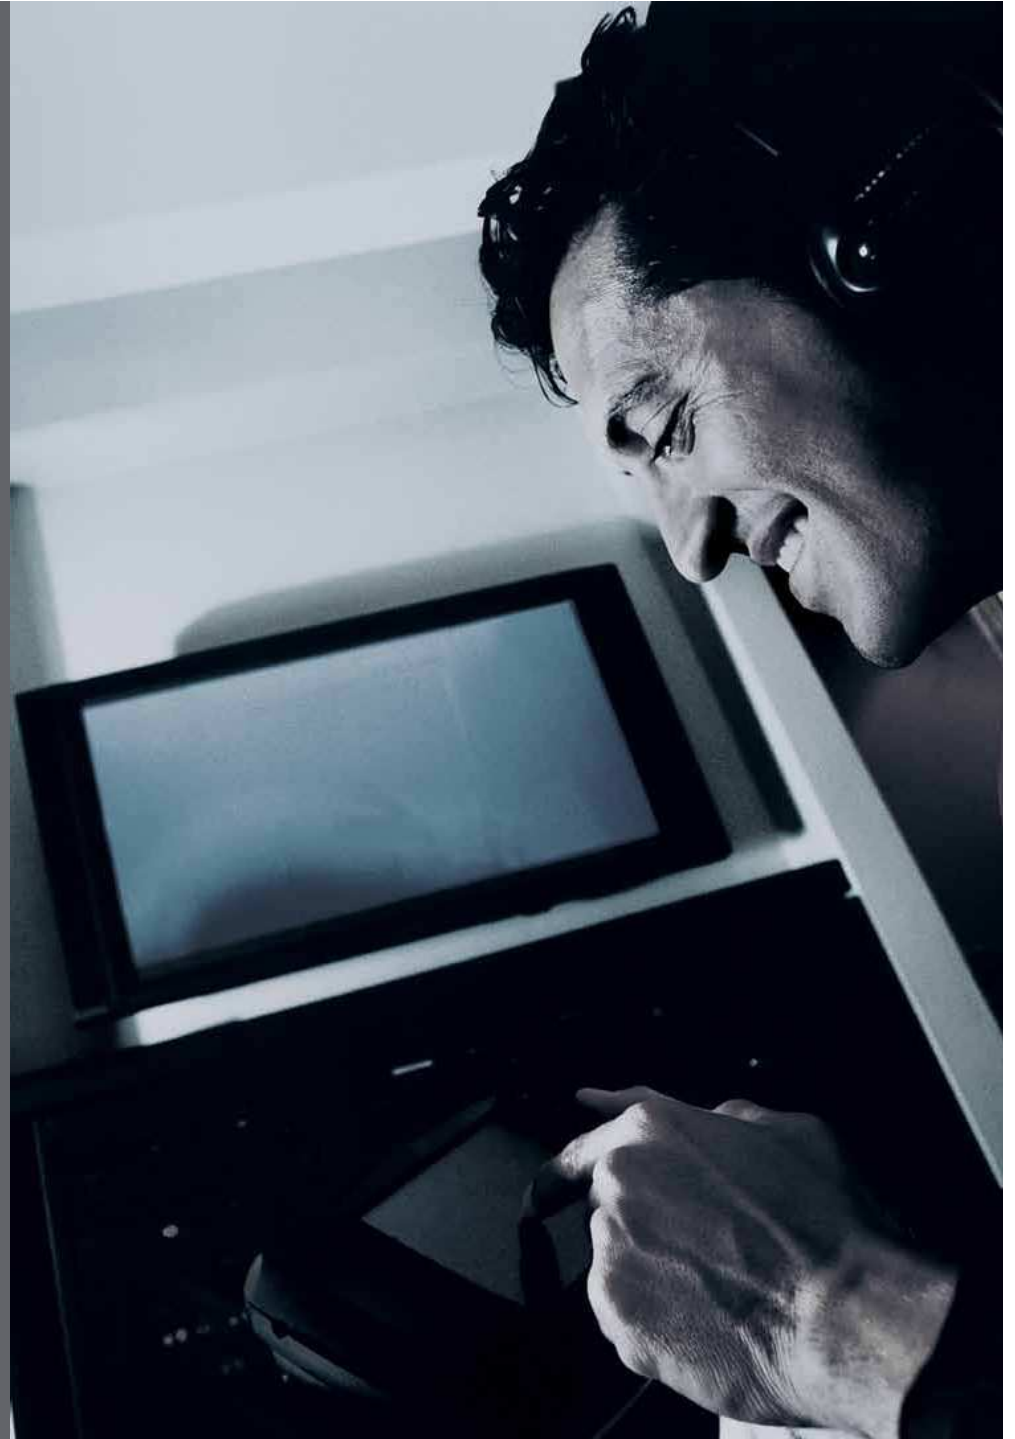

...they are difficult to **reach**...

....not **user-friendly**

and **not aesthetically** pleasing

You can **delight** your guests with a room that is completely compatible with all their devices thanks to...

EPI@rganiser

Entertainment • Power • Information • Connectivity

...A **single, simple, integrated**
connection panel
for **all** your guests' devices!

...Easy to **plug** and **play**,
simplicity for the guests!

View the videos and photographs shot that day on the in-room television

Connect MP3 and video player to the in-room AV system to enjoy personal entertainment

...**Convert** various types of data signals to TV

Link laptops to the in-room AV system for big-screen computing

Work more efficiently and have fun via the in-room interface to their PDA, PSP and other game machines

TOTAL POWER

Recharge any of your guests' devices

TruGlobal Socket

- The most compatible socket in the world
